JUL 06 1990

Subject: Preliminary Review of EPA Comments addressed by DNREC concerning Pump Test of OR-6A.

As per our conversation on July 2, 1990 pertaining to the comments presented by EPA to DNREC on Standard Chlorine pump test, EPA feels that their concerns have not been adequately addressed. Based on this information, EPA will not concur with the procedure Standard Chlorine has proposed in their pump test specifications. EPA will be submitting specific comments on the June 21st correspondence in the near future. If you should have any questions, please contact me at (215) 597-3164.

Sincerely,

Robert Guarni
Remedial Project Manager
DE/MD Section (3HW25)
